Product Description

Slotted Angle Steel Channel

These channels can be used in the construction of equipment enclosures, racks, and cabinets for housing electronics and machinery.

Strut channels are widely employed in the installation of overhead garage doors, providing a sturdy framework for the door tracks.

They offer a versatile solution for creating partitions and dividers in commercial and industrial spaces.

- 1) Slotted Angle Steel is manufactured from Q235/Q215.
- 2) The series are also available in stainless steel and other type angle steel on special order.
